22 January 2026

#	Item & Description	Qty	Rate	CGST	SGST	Amount
1	Tactical Software Development Human-Machine Interface (HMI) Development and Advanced Graphics Development Scope of Development: • Design and implement a custom Human-Machine Interface software platform for data interaction, visualization, and system control. • Develop real-time graphical dashboards and data visualization components with optimized rendering and operator interactivity. Integrate advanced graphics frameworks to ensure smooth visualization and efficient processing of data streams. • Build the underlying architecture and backend logic for telemetry handling and visual data mapping. • Conduct comprehensive testing, debugging, validation, and documentation to ensure operational reliability and maintainability. Team Composition and Effort: • Principal Investigator (Level D1) – Overall technical lead, responsible for design architecture and quality assurance. • Engineer 2 (Level A4) – Responsible for coding, graphics processing, and backend data communication	1.00	8,45,250.00	76,072.50 9%	76,072.50 9%	8,45,250.00
